SUMMARY

- The term was broadened to include the three basic components of food and nutrition security. They are availability, access and absorption.
- The Green Revolution paved the way for self-sufficiency in food grain production.
- The National Food Security Act (NFSA) was passed by the Indian Parliament in 2013.
- The new agricultural policy based on export agricultural goods was announced by the Central government in 2018.
- Health has an important role in human resources development.
