SUMMARY

- Industrial clusters are groups of firms in a defined geographic area that share common markets, technologies and skill requirements.
- Clusters may arise due to many factors. Certain clusters evolve over a long time in history when artisans settle in one locality and evolve over centuries.
- The Coimbatore region also witnessed diversification from textiles to textile machinery as well as agricultural machinery like electric motors and pumpsets for drawing ground water.
- Chennai is nicknamed as "The Detroit of Asia" because of its large auto industry base.
